

Remember radio serials? Many of you won't, but they were especially popular amongst prisoners in a time before televisions were permitted in Maitland Gaol. Some played every day at a certain hour and whole groups of prisoners would listen in for the next dramatic episode. Our modern twist on radio serials is podcasts and they are excellent for listening whilst relaxing or whilst in the garden and completing jobs around the house. The selection below includes crime, history and law podcasts that will help while away the hours.
